### - Boating Safety -

As our lake becomes busier, and property owners start to use the lake, safety is a major factor.

Our efforts to promote safe boating on Runyan Lake this year include:

- Providing a key to the boat ramp to the Livingston County Marine Sheriff for his/her use at any time, or if he/she is called.
- Posting updated safety information at the RLI web site at <http://www.runyanlakeinc.com/safety.htm>.

Additional boating safety information can be referenced at:

**Marine safety and boating laws information:**  
<http://co.livingston.mi.us/sheriff/boatingSafety.htm>

**Handbook of Michigan Boating Laws & Responsibilities** is available from Secretary of State Branch Offices or at <http://boat-ed.com/mi/handbook/>.

**Boating Safety Classes** schedule is available at <http://co.livingston.mi.us/sheriff/boatingclasses.htm>

**Please support, practice, and promote safe boating on Runyan Lake for all our families!**

### Proxy voting ...

..... is available for anyone who cannot attend General Meetings. Please contact a trustee for a proxy form. You may give your proxy vote to any other RLI member or RLI board member in good standing, to vote on your behalf on the matters of trustee elections, budget approval and bylaw changes. You may give direction on your voting, or you may entrust your nominated member to vote for you as they consider appropriate. Your completed proxy form must be at the RLI PO box 48 hours prior to the meeting, or recorded at the meeting prior to the Call to Order.

### Weed Control & Water Quality

Weed control treatment will be provided by Aquatic Nuisance Plant Control again this year. Treatment will be applied during May or early June depending on the water temperature, and any required touch-up will likely occur in July. We will advise you of the actual dates when Aquatic Nuisance schedules their treatment day.

## **AQUATIC PESTICIDE TREATMENT NOTICE**

PLEASE TAKE THE TIME TO READ THIS NOTICE: IT IS FOR YOUR INFORMATION!!

**RESIDENTS IN THIS AREA ARE PLANNING TO HAVE THE WATERS IN THIS AREA TREATED FOR CONTROL OF LAKE WEEDS AND/OR ALGAE.** This notice is being circulated at least 7 days and not more than 45 days in advance of the treatment in accordance with Department of Environmental Quality (DEQ) procedures. A permit for the treatment has either been secured or will be secured from the DEQ before the treatments are to begin. You are receiving this notice if you are within 100 ft of the treatment area.

**-Our company does two types of treatments: Algae control and Weed control. Since the beginning of the 2002 season we have been required by the State to post for copper products, which have no restrictions. If this is the case we will use a different color poster (BLUE), so please pay attention to the signs and restrictions in your area.**

If we are treating for weeds (including lake dye) then there are restrictions on the use of the water and we will post the shoreline with 14 x 11 inch yellow signs before these chemicals are applied to the lake. In some cases we treat for both algae and weeds. In those cases we may be treating with the copper products while the signs are being posted. We do not treat with the weed chemicals without posting first.

-We treat each lake according to a schedule or season plan worked out with the persons in charge of your lake treatment program. However, due to the differences in season plans and the uncertainty of weather please watch your shoreline for the posting of the 14 x 11 inch yellow signs, particularly in **April, to late August. YOUR LAKE MAY BE TREATED MORE THAN ONCE EACH SEASON. CHECK THIS WITH YOUR ASSOCIATION.** The signs will indicate the date of the treatment, the chemicals used, and the restrictions as to the use of the water for swimming, irrigation and the consumption of fish taken from these waters. We use **NEW SIGNS** for each application.

Only chemicals, which have been registered by the State of Michigan and the Federal Government, are to be used. These chemicals are applied in amounts approved by the DEQ.

**Method of Application: Chemicals are applied as either liquid or granular formulation; liquids are either surface sprayed or sub-surface injected, granular formulations are applied with broadcast spreaders.**

-Another requirement of our permit is that we locate all wells (**when using granular 2,4-D or granular Endothall products Aquathol-K and Hydrothol 191 only**) and maintain a distance of 75 ft from all wells and 250 ft from any well that is less than 30 ft in depth. **IF YOU ARE AWARE OF SUCH A WELL, PLEASE NOTIFY OUR OFFICE.**

-We anticipate using one or more of the chemicals listed below. Please be aware of the restrictions on each. We will post signs as necessary. If we have not posted it means we are using products that require no posting. If the DEQ changes any restrictions they will be noted on the signs we post. **PLEASE READ THE SIGNS WE POST!**

### **(CHEMICALS/RESTRICTIONS):**

**Reward (Diquat Dibromide):** Do not use the treated water for swimming for 24 hours. Do not use the treated water for watering lawns or gardens, animal watering (farm stock--not incidental drinking by a domestic pet), or drinking for 5 days after treatment. **There is no restriction on fish consumption.**

**2,4-D (Dichlorophenoxyacetic Acid, Butoxyethyl Ester):** Do not use the treated water for swimming for 1 day. Do not use the treated water for irrigation, agricultural sprays, watering dairy animals, or domestic water supplies. "Irrigation" includes water gardens--however, it does **NOT** include watering lawns. Lawn spray companies often use 2,4-D to kill weeds in lawns --watering lawns when only 2,4-D has been applied will not hurt your lawn (but see restrictions on the other products). "**Domestic use**" means using lake water inside your house. Fish and wildlife are not affected. **There is no restriction on fish consumption.**

### **Aquathol-K, Aquathol (Dipotassium Endothall), & Hydrothol 191 (Mono (N, N-Dimethylalkylamine) salt of Endothall):**

Do not use the treated water for swimming for 24 hours. Do not use the treated waters for household uses, irrigation (lawn or gardens), animal watering (farm stock), or similar uses for 14 days. **There is no restriction on fish consumption.**

**Copper Sulfate(Pentahydrate), Cutrine-Plus(Cutrine Alkanolamine Complex), NO RESTRICTIONS.**

**Nautique(Copper Carbonate) and Komeen (Copper-Ethylenediamine: 24 Hour restriction on swimming in treatment areas only.**

**Rodeo,Eagre(Glyphosate):** Rodeo is used primarily for lily and cattail control. **There is a 1 day no swimming restriction. There is no restriction on watering or fish consumption.**
